Avoiding Suffocation Hazards

- Unlike cribs that have rigid sides, the Pack 'N Play has flexible sides. As a result, the Pack 'N Play mattress is specially designed to prevent suffocation. The Pack 'N Play mattress has a solid base, a certain length and width, and is less than one inch thick in order to meet safety standards. Using a thicker or a different sized mattress may allow a child's head to get between mattress and the side of the Pack 'N Play causing suffocation.
- To help prevent suffocation from entrapment, **USE ONLY THE MATTRESS PROVIDED BY GRACO.** Never use additional mattress or padding.
- Never use plastic shipping bags or other plastic film as mattress covers not sold and intended for that purpose. They can cause suffocation.
- Do not use a water mattress with the Pack 'N Play.

Avoiding Strangulation Hazards

- Strings and cords can cause strangulation. Keep strings and cords away from child.
 - Do not place the Pack 'N Play near a window where cords from blinds or drapes can strangle a child.
 - Do not hang strings on or over the Pack 'N Play.

Setting up the Pack 'N Play® is easy, but only if you know how.

To Set Up Your Pack 'N Play®

Step 1.

Undo the three VELCRO® straps. Fold VELCRO® straps back onto themselves.

Set mattress aside.

Step 2.

IMPORTANT: Leave center of floor UP until all four top rails are latched.

Grasp the bottom of two of the top rails, and pull up until you hear a "click."

Be sure top rails have become rigid.

If not, pull up again until they are rigid.

FOR SMOOTH SETUP and takedown, it's important to remember one thing: the center of the floor must be at least halfway up when locking OR unlocking rails (see picture below). Therefore:

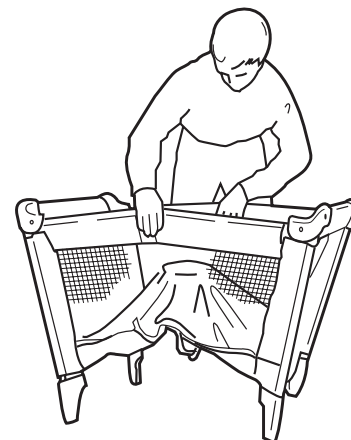

- **When setting up, lock rails BEFORE lowering center.**
- **When taking down, raise center halfway BEFORE unlocking rails.**

Step 3.

Pull up the other two sides until they latch.

NOTE: If top rails do not latch, lift the center of the floor higher. Center of floor must be at least halfway up for the latches to catch properly.

Be sure all top rails are rigid.

Step 4.

Hold one end of the unit up and push the center of the floor down.

At first your Pack 'N Play **may** be like a new pair of shoes. You may need to break it in by slightly stretching the netting and fabric. If the center does not stay down, place some weight (several books) in the center of the unit and let it stand overnight.

Step 5.

Do not use your Pack 'N Play without the mattress provided by Graco.

Place the mattress into your unit with padded side up.

Always use your unit with mattress installed soft side up.

Slide the two VELCRO® straps through slots in bottom of Pack 'N Play and fasten to VELCRO® on underside. This will prevent mattress from moving.

Make sure the mattress is installed properly before placing your child in the Pack 'N Play.

Your Pack 'N Play is ready to use.

To Set Up and Use Your Canopy

⚠ WARNING

When properly used, the canopy provides shade for your child. However, your child may be warmer inside the play yard than in a shaded area outside the play yard.

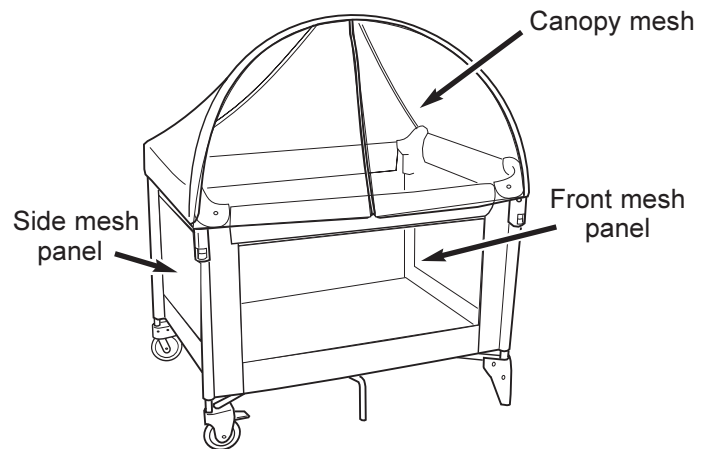

To help prevent build-up of heat inside the play yard and to avoid over-heating your child:

- Turn canopy mesh away from the sun. Keep entire mattress shaded from sunlight at all times.
- Keep play yard well ventilated:
 - Always keep the front mesh panel and one side mesh panel of the play yard open.
 - Never cover the canopy mesh.
 - Never use canopy with an add-on bassinet in the play yard.

As always, use good judgment to protect your child from exposure to heat which can lead to serious injury or death.

NEVER leave your child unattended.

ALWAYS keep your child in view.

Canopy

Tubing

Step 1.

Unfold the tubing and slide the three sections together to form one long tube. The elastic cord in the tubing will hold the pieces together.

Step 2.

Slide the long tube into the tunnel in the canopy until both ends stick out of the tunnel 3 or 4 inches. The tunnel is on the shiny side near the netting.

Step 3.

Push the tube ends into the corner brackets on the Pack 'N Play. Tube end caps will snap into place in the brackets.

NOTE: The mesh side of the canopy goes on the same side of the unit as the brackets. The shiny side goes on the inside of the unit.

To remove canopy, first **grasp tube firmly** so that it will not spring out. Then push in on end caps to release them from brackets and pull tube ends up.

Push in, then up

Step 4.

Pull the back corners of the canopy over the back corners of the Pack 'N Play and fasten the VELCRO® squares located on the ends of the top rail and back corners of the canopy.

Step 5.

To help prevent build-up of heat inside the play yard and to avoid over-heating your child:

- Turn canopy mesh away from the sun. Keep entire mattress shaded from sunlight at all times.
- Keep play yard well ventilated:
 - Always keep the front mesh panel and one side mesh panel of the play yard open.
 - Never cover the canopy mesh.

Step 2.

IMPORTANT: Raise center halfway BEFORE unlocking rails.

Step 3.

The top rail has a center piece with two tubes hidden under the fabric. The button on the bottom of the center piece releases the two tubes when it is pushed up.

To fold the top rail:

- Lift up slightly on the top rail.
- Push up on the button located under the symbol  to release the two tubes.
- Push down.

HINTS:

- Both tubes must be released for the top rail to fold.

Step 4.

Pull center up all the way.

Step 5.

Gather your unit together. **Do not force.**

If unit will not fold, look for a partially latched top rail. Squeeze the latch button to release the rail.

Step 6.

Step 7.

Wrap the mattress around your unit. Position the mattress so the mattress handle is on the opposite side of the wheels. Fasten together the VELCRO® straps.

Fold the tubes and canopy, and fit the tubes and canopy snugly into the unit. It is not necessary to remove the tube from the canopy. Grasp the tube on either side of a joint and pull apart. Repeat at other joint. Fold the tube and canopy together.
